Plymouth is changing Car-buying habits

PELL-8178

\$820

and more

and more

SINCE Plymouth arrived—a car of self-styled dimensions and increased comfort for adult passengers—thousands of former owners of more expensive cars have discovered a way to save money and at the same time own a car fulfilling all reasonable requirements.

Thousands of thousands of motorists who have always bought in the low-priced field are now turning enthusiastically to Plymouth because of its Chrysler-like smoothness, its Chrysler-like performance and its Chrysler-like economy.

Thousands of two-car families likewise now realize that their "second car" need not be a maintenance—no so today thousands of Plymouth cars are found in the same places as expensive cars.

Plymouth proves that it is possible for a low-priced car to be distinguished in style—easily roomy and comfortable—swift and smooth and quiet in flight—hard, strong, safe at any speed.

Now, let's see how it is possible. I can easily say that the Plymouth is the most important car in the world. It is the most important car in the world. It is the most important car in the world. It is the most important car in the world.

Plymouth's 2-door Sedan, 210—most common car—Chrysler-Built for Economy

Plymouth has a stronger body construction than any other car anywhere now in price. And Plymouth is the only low-priced car with the safe, quick control of Chrysler weatherproof internal-sus-

pending 4-wheel hydraulic brakes—self-equilibrating and permanently non-slip. Lagging of motion is only learning behind the wheel that Plymouth truly is changing car-buying habits.

MIRACLES
IN THE
MAKING

The Lamp that Bounced into Fame

It was apparently just an ordinary lamp, yet because it fell to the laboratory floor . . . revolutionized the entire lighting industry.

For years, scientists had been striving to make such a lamp . . . a lamp frosted on the inside, which would be strong enough for practical use, but there was one serious obstacle to attaining this glass-proof, dust-proof lamp. When the inside was frosted the lamp became exceedingly fragile. A new striking process had to be invented.

lamp with fast a strong, and then a weak, solution of the same striking acid. During the experiment the lamp fell to the floor but, instead of breaking into a thousand pieces, it merely bounced! The proper frosting process had been discovered . . . and another notable achievement had been recorded for Maids research!

This modern inside Frosted Lamp is the culmination of a series of notable improvements in lighting made since the early days of carbon lamps by research in Maids Lamp, Today, Canadian General Electric Company renders a lighting service to the Dominion which includes every form of illumination from the tiniest Edison Mazda Lamp for the home to the powerful beams which guide ships through their landing fields.

name was Thatch, my initials were Tim Foley."

Tim Foley stated:

"I used my mother's name because my mother would let me live for me here if they knew I wrote under it."

"Then you are really Tim Foley?"

"Yes."

"Where do you live in California?"

"Somewhere left WASH up and out into it, sometimes at the beach."

"There?"

"That is my church, I built it."

Foley began to laugh. "Is that funny?" He shouldn't be laughing. His own dream is ruined, and he is experienced in business—very experienced.

They all sat silent and shared his story.

"I like you more than anyone I know," she said earnestly. "I shall continue to think of you all my life. But I love Ramona."

The man's friend was on her phone. "I love you," he whispered, and kissed her.

PHILIPS reached home in three days. The mother welcomed her father.

the boundaries of the West Coast at the end of the Colony in either present or future. The boundaries of the Colony were not to be extended north or south of the 49th parallel and east or west of the 120th meridian. The Maritime Boundary Commission passed a decision in 1984 that the maritime boundaries of the United States and Canada were to be determined by the equidistance principle. This meant that the maritime boundary between the United States and Canada was to be a line that was equidistant to the nearest land of each country. This meant that the maritime boundary between the United States and Canada was to be a line that was equidistant to the nearest land of each country. This meant that the maritime boundary between the United States and Canada was to be a line that was equidistant to the nearest land of each country.

Wang to tell of the Quaker business in relation to slavery in America. He says, "I am glad to see the English newspaper, as well as Quaker one, that the full extent must be made known to the world. The Quaker press of Great Britain by British agents, sent to me of C. M. S. in this case were distributed by American agents. 11 Quakers to my knowledge have been sent to the States to tell upon local matters only. I think if the progress would be anything like what I have seen in England, the cause would be hastened on here. — I have printed the *Evening Star* of the Fall of the Lumbermen, containing some facts, and I have put my own views on the subject. I have not said any more than we have done for our part. I am sure it is enough to excite interest, and I have no doubt it will be read in the columns of your great organ which will hasten laborers to be more advanced in the cause. I have given to the *Philadelphia* of my country the Quaker's contribution as my part of the Society in England, and Quaker is quoted in the *Philadelphia* as having been the only English one mentioned."

The Case of the Shoshone
NOT in considering in detail the chief objections of our people to Confederation is it necessary to mention comparisons with New England, our nearest neighbor. The Shoshone is a more compact people than any of the thirteen states, population and territory considered. It is not, however, a more compact people than the state of New York, and does not suffer the same disadvantages as that commonwealth is so often accused of. The Shoshone is a compact people, which is an advantage in regard to the management of its affairs. It is a compact people, which is an advantage in regard to the management of its affairs. It is a compact people, which is an advantage in regard to the management of its affairs.

17th Century English Canoe

The raffish and sophisticated and seductive atmosphere of 17th-century London, the golden age of English canoeing, is beautifully portrayed in this lavishly illustrated, sumptuously bound book. The 17th-century English canoe, in its various guises, is a truly beautiful thing, and this book is a masterpiece of design and illustration. It is a book that will appeal to all who are interested in the history of the canoe, and to all who are interested in the history of the English canoe.

The book is a masterpiece of design and illustration. It is a book that will appeal to all who are interested in the history of the canoe, and to all who are interested in the history of the English canoe.

STEWART-WARNER
Radio

[illegible]

Music is a symbolization of what is played or heard. The awareness of the high emphasis, the boom in the drum, the soft tone of the horn, etc., are heard firstly in the atmosphere, push up the atmosphere, and then the music itself is heard. The music is not a thing, it is a feeling. What do you achieve? So what is your goal? You cannot come home with a do-it-yourself machine. When people progress they tend to come from merely animals, because of the animals, we find no original music. When the life is ending, when the life is over, then the music is over.

Bonds versus Common Stocks As Permanent Investments

By A. M. ELLIS

FOR many months there has been a running battle to decide, in the public opinion, whether the purchase of common stocks or bonds is the better investment. The question is not new, and it is not likely to be solved in the near future. The question is not new, and it is not likely to be solved in the near future. The question is not new, and it is not likely to be solved in the near future.

There are two important factors which must be considered in the choice of bonds or stocks. The first is the question of the future of the country. The second is the question of the future of the world. The first is the question of the future of the country. The second is the question of the future of the world.

YIELD OF GOVERNMENT BONDS

Term	Yield	Term	Yield
3 months	4.00%	3 years	4.50%
6 months	4.25%	5 years	4.75%
1 year	4.50%	10 years	5.00%

Why Not Banish Money Worries?

A North American Life "Four Way" Policy banishes money worries about the future. It offers financial aid for the years to come.

- These Policy pays four ways. For instance, on a \$10,000 Endowment at 65 you are guaranteed:
- (1) At age 65, \$10,000 or if you prefer, \$250 yearly for life.
 - (2) If you become sick for work before age 65, you receive \$100 monthly, further payments are cancelled, and at 65 years of age you are paid \$10,000 or \$250 yearly.
 - (3) If you become age 65 your family receives \$10,000 or \$250 yearly.
 - (4) If you die at an earlier time the amount is increased to \$20,000.

"Four Way" protection is complete protection. It makes almost any provision for future comfort of yourself and your family. It covers every emergency.

Why not plan now to set aside a portion of your income each year on this North American Life policy that "Pays-Four-Way"?

Old Dutch is the greatest forward step in modern cleaning efficiency

It Safeguards the home with Healthful Cleanliness

Old Dutch Cleanser is the greatest forward step in modern clearing efficiency because it cleans perfectly—doesn't scratch. Furthermore, it makes cleaning so much easier—so much more convenient and economical, and most important of all, brings *Healthful Cleanliness*.

When you use Old Dutch, you employ the most modern, advanced and practical method of cleaning. It is especially adapted to proper care of the finest up-to-date porcelain, enamel and polished tile. The very fact that *Old Dutch* is ideally suited to these highly glazed surfaces is your assurance that it can be used for all cleaning purposes with absolute safety and most satisfactory results. *Old Dutch* is absolutely safe because it is entirely free from

harsh, scratchy grit. Free from acids or caustic. It is not a chemical. *Old Dutch Cleanser safeguards your family with Healthful Cleanliness*. Its flaky, flat-shaped particles possess distinctive, detergent energy. They capture and remove the invisible impurities, as well as the visible dirt, assuring wholesome, hygienic cleanliness. *Old Dutch* creates a standard of cleanliness that should and can be constantly maintained.

You will find it so handy to have a can of *Old Dutch* in the kitchen, another in the bathroom and one in the laundry. It simplifies cleaning—saves steps and energy—keeps everything spick and span. *Old Dutch* is kind to the hands; doesn't irritate or roughen the skin. A little *Old Dutch* goes a long way.
